ALLISON IMPATIENT

Desires Senators to Vote on Tariff Bill Today.

TO SIT IT OUT WITH OBJECTORS

Pettigrew Announces He Will Vote Against the Bill and Denounces It as Iniquitous—President McKinley Will Start on His Vacation Next Week. Holloway to Go to St. Petersburg.

WASHINGTON, July 23.—Shortly before the senate adjourned yesterday Senator Allison, in charge of the tariff bill, made a strong effort to have a time fixed for the final vote on the tariff conference report. Failing in this Mr. Allison gave notice that the session today would be protracted with a view to securing a vote. It was the first definite movement made thus far towards bringing the debate to a close. Mr. Allison's first proposition was for a vote at 5 o'clock today but this was objected to by Mr. Pettus (Ala.). Then he proposed a vote some time before adjournment today which was objected to by Mr. Morgan.

The suggestion of Saturday at 1 o'clock met with like objection from Mr. Morgan. The Alabama senator explained his last objection by stating that he thought all debate on the report would be exhausted today, so that it was needless to make an agreement in advance. Finding that there was no disposition to reach an agreement Mr. Allison finally gave notice that hereafter, while the report was pending, the senate would not adjourn at 5 o'clock without a yea and nay vote.

The debate on the report was participated in by Senators Chilton (Tex.), Jones (Ark.) and Pettigrew (S. D.), in opposition while Mr. Aldrich took frequent occasion to defend the report against the criticism of these senators. Mr. Pettigrew announced his purpose to vote against the conference report, although he expected that the bill in its present form with all its inequities would become a law. Its inequities would make it difficult to repeal, as the favors it gave, brought it such tremendous strength that the Republican party would be able to collect a fund of \$30,000, \$40,000, or \$50,000,000, if they needed it in order to carry an election. He believed, however, that the contest of the future was not on the tariff but that between Republican institutions and plutocracy.

The credentials of the new senator from Tennessee, Thomas H. Bailey, who succeeds the late Senator Harris, were presented to the senate by his associate, Mr. Bates. Mr. Bailey was then escorted to the vice president's desk, where the oath of office was duly administered.

MR. KINLEY'S VACATION.

He Expects to Leave Washington Next Wednesday For Lake Champlain.

WASHINGTON, July 23.—President McKinley will leave Washington next Wednesday for his summer vacation on Lake Champlain provided congress adjourns in time to permit it. He will proceed directly to Plattsburg on the west side of the lake, not stopping at any intermediate point if it is possible to avoid so doing. It is the intention of the president to have all official announcements of executive action taken while he is on his vacation made through the regular machinery at Washington, his purpose being to secure relief from the cares of business as far as possible.

Secretary Sherman left here for Amagansett on Long Island today. His daughter Mrs. McCallum is suffering at that place and the secretary expects a change in climate will assist him in recovering his health. Second Assistant Secretary A. A. Ade will act as secretary of state in the absence of Secretary Sherman and Assistant Secretary Day.

COLONEL W. R. HOLLOWAY.

He Is to Be Appointed Consul General at St. Petersburg.

WASHINGTON, July 23.—Colonel W. R. Holloway left for home yesterday to get his affairs in shape for a four years' absence in Europe. The colonel declines absolutely to say what appointment he is to receive, but from a state department source it is learned that he will be consul general at St. Petersburg, and that the appointment will be made Sept. 1. Colonel Holloway would have preferred something in England or Ireland, where fat consular fees enrich the pocket, but as these posts were all promised he was not sorry to accept the higher sounding but somewhat less remunerative office of consul general at St. Petersburg.

YUKON GOLD FIELDS.

Canadians Not Certain About the Territory Being American.

OTTAWA, Ont., July 23.—The attention of the government has been called to the claims advanced in the United States press that the Yukon gold fields are in American territory. The ministers are reticent. It is learned, however, that the government regards the convention under which the boundary commission was appointed as being of the nature of a treaty and any act in contravention of that convention would be regarded as equivalent to the denunciation of the treaty. The government regards the definition of a boundary on the basis of the Montana St. Elias line as a scientific proposition, but admits that the ownership of some of the islands on the coast may be subject for argument.

ARMING OF DEPUTIES

Coal Operators Convinced That Matters are Taking Serious Turn.

At Spring Valley. SPRING VALLEY, Ill., July 23.—The miners' union of this city has sent John Mitchell, a prominent organizer, to Keokuk and Galva where there are little mines that have been working all through the suspension. Those miners, it was said, would come out if required. Not a mine in Bureau county is at work except one at Sheffield and it is said that an effort will soon be made to get those men out. The miners of this vicinity think their chances of winning are good. Business men of this city met in the city hall last night to take steps looking to the relief of the miners.

ARBITRATORS UNSUCCESSFUL.

Trouble Expected at Canonsburg Where an Attempt Will Be Made to Get the Men Out—Complete Suspension at Bloomington, Ills.—Fairmont Miners Fired Into by an Operator.

PITTSBURG, July 23.—Excitement is at fever heat in local coal mining circles. The operators here are apparently prepared for any demonstration and were convinced that matters had taken a serious turn. About 500 miners from the Finleyville district marched on the Banola mines on the river and succeeded in bringing the men at work out. Sheriff Lowry of this county has a force of deputies ready for duty at a moment's notice and trouble is looked for at any time. The deputies are in readiness to go to the mines of the New York and Cleveland Gas Coal company. A march on the Turtle Creek, Plum Creek and Sandy Creek mines is expected at any time. It was learned from reliable authority that such a march was in contemplation, but would not take place for a day or two.

From the middle of the afternoon until dusk the broad expanse of Michigan avenue, was swept from curb to curb by a marching host. From end to end it was a glittering

A baking powder man started in busi-
ness twenty years ago with a cash cap-
ital of \$12.50. He sold out his interest
in the business the other day for \$2-
500,000. Doubtless his baking powd-
er is an excellent article, but the chief
reason for his success was the fact that
he never allowed the public to pick up
a newspaper without his familiar "ad"
in it.

MAJOR LEE'S RECEPTION.

A Warm Welcome Extended at Armory
Hall Last Night.

Yesterday afternoon Major Chas. W.
Lee, republican candidate for congress,
arrived in Seymour, and spent the
latter part of the afternoon calling on
our citizens and making their ac-
quaintance. Charlie is a wholesome,
honest, friendly man whom the people
are glad to welcome. He invariably

leaves a warm spot in the heart of all
he meets.

Last night a hearty reception was
tendered the Major at Armory hall. A
good sized crowd was present and en-
joyed themselves quite well. At the
close Major Lee was called for and
made a brief address in his own happy
style. His remarks were warmly ap-
plauded at times and he made a good
impression on all who were present.

He will spend today in Ridging and
Hamilton townships and be in Seymour
again this afternoon and evening.

DIED.

Mrs. Elizabeth Barnett died Tuesday
July 20, 1897, at her home near Tam-
pico, with asthma, aged sixty five years.

More Men at Work.

This morning several more teams
went to work hauling gravel for the
street improvement. Indications are
that the work will be pushed along
quite rapidly.

Seymour's Water Supply.

J. N. Hurty, secretary of the state
board of health, has sent for five sam-

The Columbus Situation.

There is no change in the strike situ-
ation at Columbus. An unsuccessful
attempt was made yesterday to adjust
the differences between the Mooneys and
the strikers. The latter submitted their
ultimatum asking their former wages,
a nine hour day and the reinstatement
of all former employees. The employ-
ers could not concede these points
and there the conference ended. Four
of the old men returned to work this
morning and several new men have
been employed. The strikers will prob-
ably make a statement of their case this
afternoon.

Old People.

Old people who require medicine to
regulate the bowels and kidneys will
find the true remedy in Electric Bitters.
This medicine does not stimulate and
contains no whisky nor other intoxi-
cant, but acts as a tonic and alterative.
It acts mildly on the stomach and bow-
els, adding strength and giving tone to
the organs, thereby aiding nature in the
performance of the functions. Electric
Bitters is an excellent appetizer and
aids digestion. Old people find it just
exactly what they need. Price fifty
cents and \$1.00 per bottle at W. F.
Peter's drug store.

A CONFIDING WOMAN.

Comes to Grief in a Brief Matrimonial Ex-
perience.

A middle aged woman giving her
name as Mrs. Willie Bond alighted from
the fast west bound early morning train
While here she related here she related
tale of woe. It was the story of a mat-
rimonial venture of short duration and
abrupt ending. This was her third
venture in matrimonial experience.
As a widow, Mrs. Emma Umbolts, she
had worked at a hotel in Piqua, Ohio.
There she met Willie Bond, thirty-five,
good looking and with one leg shorter
than the other. Willie proposed mar-
riage and was accepted. The bride had
saved \$400 from her earnings and pos-
sessed a gold watch and other jewelry.
They were married last Saturday at
Troy, Ohio, where she expended about
half her savings in their wedding
outfits and turned the remaining \$200
over to her husband. Having decided
to go into business at Vincennes they
went to Cincinnati and started west on
the B. & O. S. W. train. Soon after
getting on the train he borrowed her
gold watch and went into the smoking
car to enjoy a cigar. By and by she
grew suspicious that the cigar was being
smoked for an unusually long time and
on inquiry from the conductor found
that he had left the train soon after
leaving the city. She came on to Sey-
mour and returned to Cincinnati on the
next train declaring she would hunt up
her lost Willie and if possible put him
under the care of the Ohio penitentiary
warden.

AN ABLE PRACTICAL JOKE.

It Created Considerable Excitement in a
University City.

The Cambridge (England) Independ-
ent Press retells the story of the hoax
perpetrated upon the civic and univer-
sity authorities at Cambridge on the
occasion of the visit of the late shah of
Persia to that country. It was on Satur-
day, June 28, 1873, at 11 o'clock in the
forenoon, that a telegram was found
lying on the hallkeeper's table in the
Guildhall. It was directed to the wor-
shipful the mayor of Cambridge, was
signed by Lieutenant Colonel Hamilton
and read as follows:
"His imperial majesty the shah of
Persia desires to visit your university
town today en route for London by spe-
cial, arriving at Cambridge station
about 1:10 o'clock. Be prepared with
escort and reception as far as time al-
lows."

Instantly everybody began tumbling
over his fellow. The town clerk was
sent for, and messages were dispatched
to the vice chancellor, the members of
the corporation, the volunteer officers
and the cook of St. Peter's college kitch-
en. The vice chancellor hurried on his
robes, the aldermen and councilors did
ditto, the volunteers donned their uni-
forms, and the cook began to boil and
fry.

Nor were the general public behind-
hand. Flags were hung out and crowds
gathered in the street. Dr. Cookson, the
vice chancellor (irreverently known in
those days as "Dismal Jimmy"), made
his way to the station as fast as his dig-
nity would permit. The mayor, Mr. T.
H. Naylor, and the corporation followed
suit. A guard of honor and carriages
were in waiting, and soon everybody
was there except the shah. Then the
news flew round that the railway offi-
cials knew nothing about the special
train, and after a brief delay it was ap-
parent that the whole thing was a hoax.
The perpetrators of the hoax were never
discovered, though two persons were
afterward freely mentioned in connec-
tion with it. In the year of grace 1873
the era of practical jokes was past, but
had the authors of the shah's visit been
alive in the days of Theodore Hook
they might have lived in literature.

John P. McLean's Great Newspaper.

Without a single exception, there
is beyond doubt no greater or more
popular newspaper in the United
States than the Cincinnati Enquirer;
and a more successful publisher than
its proprietor, Mr. John P. McLean.
The old-time prices for the Daily
Enquirer have been maintained, and
its circulation largely increased each
year; hard times and cheaper jour-
nals failing to arrest its onward march
and high appreciation of the public
for its true worth and merit.

The Weekly Enquirer at beginning
of the campaign year was offered at
50 cents a year, and its circulation
increased by the addition of over
200,000 new subscribers; the most
substantial and coveted testimonial a
publisher could desire.

When asked for the secret of such
success, Mr. McLean frankly answers:
The Enquirer has no opinions to force
upon its patrons, it simply prints the
facts and tells the truth that the reader
may form his own opinions. By
maintaining the price of the paper,
more news and greater variety can be
furnished, and every class of business
interests catered to, which a cheaper
journal cannot afford.

The very liberal support given the
Enquirer by the public at large, makes
it incumbent upon the management
to serve it faithfully with zeal and en-
terprise in minor matters as well as
those of greater magnitude.

BUSINESS NOTES.

Snakes are said to be very numerous
this season.

H. W. Turner, of near Mitchell, was a
business visitor in the city last night.

Blackberries are being brought to the
city in large lots and meet with ready
sale.

M. C. Shortman and Miss Ida Short-
man, of Troy, O., are in the city on busi-
ness.

W. D. Bohall, of the county seat
drove up to the city Thursday on busi-
ness.

Capt. David Braden, of Indianapolis,
was a business visitor in the city Thurs-
day.

Montgomery & Perry last night
shipped two cars of extra fat hogs to
Cincinnati.

The Blish Milling Company is now re-
ceiving wheat very liberally and it is of
fine quality.

Charles H. Duhme, of Cincinnati,
came down to the city last night to look
after his real estate.

H. D. Langdon and wife came here
this morning from Vincennes on busi-
ness and to see friends.

Charles Patterson and A. A. Conner,
of Redding township, began last night
shipping plums to Pittsburgh, Pa.

The Hub and Spoke Factory has
closed down for a few days to give the
employees a much needed rest.

F. M. Miller, marshal of Brownstown,
came up to the city last evening to pur-
chase a class of goods not to be found in
his town.

The weather for the past few days has
been as fine as ever known for wheat
threshing and oats and hay cutting and
farmers are making good use of it.

Drs. G. G. Graessle, W. M. Casey, J.
M. Shields and L. B. Hill drove this
morning to the present county seat and
procured licenses to practice their pro-
fession as provided for under the new
law.

Prof. Cline and daughters, who have
given some interesting exhibitions at
the Christian church, returned this
morning to Greensburg. They are so
well impressed with our city and its
people that they will be here again
soon.

CHURCH NOTES.

Reasons Why Chamberlain's Colic, Cholera
and Diarrhoea Remedy is the Best.

1. Because it affords instant relief in
cases of pain in the stomach, colic and
cholera morbus.

2. Because it is the only remedy that
never fails in the most severe cases of
dysentery and diarrhoea.

3. Because it is the only remedy that
will cure chronic diarrhoea.

4. Because it is the only remedy that
will prevent bilious colic.

5. Because it is the only remedy that
will cure epidemic dysentery.

6. Because it is the only remedy that
can always be depended upon in
cases of cholera infantum.

7. Because it is the most prompt and
most reliable medicine in use for
bowel complaints.

8. Because it produces no bad re-
sult.

9. Because it is pleasant and safe to
take.

10. Because it has saved the lives of
more people than any other medicine
in the world.

Something to Depend On.

Mr. James Jones, of the drug firm of
Jones & Son, Cowden, Ill., in speaking
of Dr. King's New Discovery, says that
last winter his wife was attacked with
La Grippe, and her case grew so serious
that physicians at Cowden and Pana
could do nothing for her. It seemed to
develop into Hasty Consumption. Hav-
ing Dr. King's New Discovery in store,
and selling lots of it, he took a bottle
home, and to the surprise of all she be-
gan to get better from first dose, and
half dozen dollar bottles cured her
sound and well. Dr. King's New Dis-
covery for Consumption, Coughs and
Colds is guaranteed to do this good
work. Free trial bottles at W. F.
Peter's drug store.

Prison Labor.

Yielding to a demand by free labor,
our late general assembly passed an act
prohibiting the penal institutions of this
state from manufacturing goods to be
sold in competition with free labor, as
fast as existing contracts expire. Al-
ready a good many convicts are in en-
forced idleness, which will be a grave
disaster along as contracts expire.

The decision of Judge Carr, of the
Wayne circuit court where the agent
of the Kentucky prison made a fur-
ture was defendant, declaring the act of 1895
restricting the sale of convict made
goods of other states unconstitutional,
will if sustained by the supreme court,
make this state the dumping ground
for other states, while the enforced id-
leness of convicts of this state will not
give the hoped for relief to free labor
of this state.

RAILROAD RUMBLINGS.

Passenger conductors report a marked
increase in local travel the last ten
days, and take it as evidence that the
people in the country again have
money to travel on.

The Pennsylvania people have under
consideration the making of a number
of changes in the running times of their
through trains, which, it is thought,
will still further improve the service
and better accommodate the through
travel.

TAGGART RENOMINATED.

Ex-State Democratic Chairman Carries the
Mayorality Nomination on First Ballot.
INDIANAPOLIS, July 23.—The Demo-
cratic city convention held here yester-
day afternoon renominate Thomas
Taggart for mayor on the first ballot,
the vote being: Taggart, 609; Frank A.
Maus, 10; John N. Navin, 15; T. F.
Harrison, 9. All the other city officers
were renominate. The platform in-
dorses the Chicago platform and Wil-
liam Jennings Bryan; condemns the Re-
publican party "for failure to open the
mills, as it promised, if restored to
power," extends sympathy to American
laborers, who were promised better
wages and steady employment if Mc-
Kinley was elected; condemns Governor
Mount and the late legislature for
amendments to the Australian ballot
law; extends sympathy to the striking
coal miners and extols Mayor Taggart's
administration of city affairs.

VANDEPOLE TROLLEY PATENT.

United States Court Knocks It Out—Can
Be Used by Anyone.

NEW YORK, July 23.—In the circuit
court of appeals for this district, a de-
cision has just been handed down in the
case of the Thompson-Houston Electrical
company against the Hoosier Railroad
company.

The court holds that the Vandepole
trolley patent is invalid by reason of the
same invention having been disclosed in
an earlier patent to Vandepole. The
decision, therefore, invalidates the patent,
because it was claimed to cover
broadly the idea of the undercurrent
trolley on an overhead wire.

The court's finding affects all the trol-
ley railways of the country, as the patent
may now be used by anyone without
paying royalty.

Under an Apple Tree.

HAZEL GREEN, Ky., July 23.—At the
residence of James Wilson, while he
and his wife were away from home a
storm came up. Four children were
playing in the yard near an apple tree,
in which hung some moving scythes,
and lightning struck and killed two of
the children and badly burned and
stunned another. The three were stand-
ing some little distance from the tree,
and the fourth was standing by the
tree and was unhurt. It seems that the
flash must have struck the tree and
been led off by a scythe blade to where
the three children were standing in a
bunch.

He is Very Ill at the Joliet Prison—Fears
of a Paralytic Stroke.

JOLIET, Ill., July 23.—J. R. Dunlop,
ex-editor of the Chicago Dispatch, who is
serving time in the penitentiary for
printing obscene matter and sending it
through the mails, is in a weak condition.
He is a changed man. Ever since the
day he entered the penitentiary he has
never left the small room on the second
floor of the hospital although he has
had the best of care. There is fear of
another paralytic stroke, he having suf-
fered two before coming to the prison.
The doctors say another one will prove
fatal.

Sale Set Aside.

ASHLAND, Ky., July 23.—The recent
sale of the gas well and adjacent prop-
erty at Warfield, W. Va., known as the
Tug River Coal and Salt company, has
been set aside by Judge Barr of the
federal court. The property was bid in
by Cincinnati parties for \$68,000. Those
making the motion guaranteed a bid of
\$10,000 more than this.

ALLISON IMPATIENT

Desires Senators to Vote on Tariff Bill Today.

TO SIT IT OUT WITH OBJECTORS

Pettigrew Announces He Will Vote Against the Bill and Denounces It as Iniquitous—President McKinley Will Start on His Vacation Next Week. Holloway to Go to St. Petersburg.

WASHINGTON, July 23.—Shortly before the senate adjourned yesterday Senator Allison, in charge of the tariff bill, made a strong effort to have a time fixed for the final vote on the tariff conference report. Failing in this Mr. Allison gave notice that the session today would be protracted with a view to securing a vote. It was the first definite movement made thus far towards bringing the debate to a close. Mr. Allison's first proposition was for a vote at 5 o'clock today but this was objected to by Mr. Pettigrew (Ark.). Then he proposed a vote some time before adjournment today which was objected to by Mr. Morgan.

The suggestion of Saturday at 1 o'clock met with like objection from Mr. Morgan. The Alabama senator explained his last objection by stating that he thought all debate on the report would be exhausted today, so that it was needless to make an agreement in advance. Finding that there was no disposition to reach an agreement Mr. Allison finally gave notice that hereafter, while the report was pending, the senate would not adjourn at 5 o'clock without a yea and nay vote.

The debate on the report was participated in by Senators Chilton (Tex.), Jones (Ark.) and Pettigrew (S. D.) in opposition while Mr. Aldrich took frequent occasion to defend the report against the criticism of these senators. Mr. Pettigrew announced his purpose to vote against the conference report, although he expected that the bill in its present form with all its inequities would become a law. Its inequities would make it difficult to repeal, as the favors it gave, brought it such tremendous strength that the Republican party would be able to collect a fund of \$20,000, \$40,000,000 or \$50,000,000, if they needed it in order to carry an election. He believed, however, that the contest of the future was not on the tariff but that between Republican institutions and plutocracy.

The credentials of the new senator from Tennessee, Thomas B. Turley, who succeeds the late Senator Harris, were presented to the senate by his associate, Mr. Bate. Mr. Turley was then escorted to the vice president's desk, where the oath of office was duly administered.

McKINLEY'S VACATION.

He Expects to Leave Washington Next Wednesday For Lake Champlain.

WASHINGTON, July 23.—President McKinley will leave Washington next Wednesday for his summer vacation on Lake Champlain provided congress adjourns in time to permit it. He will proceed directly to Plattsburg on the west side of the lake, not stopping at any intermediate point if it is possible to avoid so doing. It is the intention of the president to have all official announcements of executive action taken while he is on his vacation made through the regular machinery at Washington, his purpose being to secure relief from the cares of business as far as possible.

Secretary Sherman left here for Amagansett on Long Island today. His daughter Mrs. McCallum is summing at that place and the secretary expects a change in climate will assist him in recovering his health. Second Assistant Secretary A. A. Adey will act as secretary of state in the absence of Secretary Sherman and Assistant Secretary Day.

COLONEL W. R. HOLLOWAY.

He Is to Be Appointed Consul General at St. Petersburg.

WASHINGTON, July 23.—Colonel W. R. Holloway left for home yesterday to get his affairs in shape for a four years' absence in Europe. The colonel declines absolutely to say what appointment he is to receive, but from a state department source it is learned that he will be consul general at St. Petersburg, and that the appointment will be made Sept. 1. Colonel Holloway would have preferred something in England or Ireland, where fat consular fees enrich the pocket, but as these posts were all promised he was not sorry to accept the higher sounding but somewhat less remunerative office of consul general at St. Petersburg.

YUKON GOLD FIELDS.

Canadians Not Certain About the Territory Being American.

OTTAWA, Ont., July 23.—The attention of the government has been called to the claims advanced in the United States press that the Yukon gold fields are in American territory. The ministers are reticent. It is learned, however, that the government regards the convention under which the boundary commission was appointed as being of the nature of a treaty and any act in contravention of that convention would be regarded as equivalent to the denunciation of the treaty. The government regards the definition of a boundary on the basis of the Mount St. Elias line as a scientific proposition, but admits that the ownership of some of the islands on the coast may be subject for argument.

ARMING OF DEPUTIES

Coal Operators Convinced That Matters are Taking Serious Turn.

ARBITRATORS UNSUCCESSFUL.

Trouble Expected at Canonsburg Where an Attempt Will Be Made to Get the Men Out—Complete Suspension at Bloomington, Ills.—Fairmont Miners Fired Into by an Operator.

PITTSBURG, July 23.—Excitement is at fever heat in local coal mining circles. The operators here are apparently prepared for any demonstration and were convinced that matters had taken a serious turn. About 500 miners from the Finleyville district marched on the Banola mines on the river and succeeded in bringing the men at work out. Sheriff Lowry of this county has a force of deputies ready for duty at a moment's notice and trouble is looked for at any time. The deputies are in readiness to go to the mines of the New York and Cleveland Gas Coal company. A march on the Turtle Creek, Plum Creek and Sandy Creek mines is expected at any time. It was learned from reliable authority that such a march was in contemplation, but would not take place for a day or two.

At Canonsburg it was reported that 1,000 men would march to the Cook mines and stay there until the diggers came out. Sheriff Clark of Washington county is on hand with a large number of deputies and trouble is expected if the strikers attempt to force the men to quit work.

The miners' leaders continue to work in an effort to get the miners in the Connellsville coke region out, but dispatches from Uniontown and Dunbar indicate that they are meeting with poor success. A Uniontown dispatch says the leaders are very much disheartened and admit privately that they have failed to create any strike sympathy. The Red Stone miners, it is claimed, will be back next week.

The arbitrators are at work among the Pittsburgh operators and they are trying every means to bring about a meeting of the operators. So far they have been unsuccessful in arranging for a meeting, but it is hoped to accomplish this shortly. Mayor Ford said that he had not consented to call a meeting and that he will not do so, although it had been suggested to him that such a proceeding would be the best thing to do under the circumstances.

A Wheeling dispatch says the miners at the Boggs mine refused to come out when requested by a committee of strikers to do so and arrangements are being made for a demonstration of the strikers. While it is declared it will be a peaceful demonstration another refusal to come out may precipitate trouble.

ARMED DEPUTY SHERIFFS.

Outbreak at the Hite Mines Near Fairmont.

FAIRMONT, W. Va., July 23.—Armed deputy sheriffs of the county now guard the Hite mine at Kings, three miles above here on the Tygart Valley river. The sheriff was called there late yesterday as the operators feared an outbreak, but no arrests were made. The drivers at that mine joined the strikers as a result of the efforts of Crawford Temple, a Monongah miner, who since joining the union, has proved as efficient a missionary as the organizers could desire. The operators secured new drivers in an hour and over half of the miners went out. Then the second lot of drivers threw up their positions and some of the men began stoning the miners, who were forced to leave their work, and who had assembled in front of the mine. Rolf Hite, the superintendent, soon had his faithful Winchester in his hands and three shots quelled the enthusiasm of all the strikers but one, who made for Hite with a pick, but he was driven off at once.

People shudder at the tales of Monte Carlo suicides, but look on with perfect equanimity while friends and loved ones commit just as certain suicide by neglecting their health. Trifling disorders of the digestion persistently neglected lead to impurity of the blood, the tissues of the body are imperfectly nourished, and emaciation and debility follow. In the case of that dread disease, consumption, imperfectly nourished tissue is built up in the lungs, forming a suitable soil for the germs of the deadly disease. One-seventh of all the deaths each year are due to consumption. This fearful death rate could be easily avoided if the proper remedy was resorted to.

A sure preventive and cure of consumption is found in Dr. Pierce's Golden Medical Discovery. It cures 98 per cent of all cases. It corrects all disorders of digestion, invigorates the liver, and makes the blood pure and plentiful. It is the great blood-maker, flesh-builder, and nerve invigorator. It gets into the blood and acts directly upon the lungs, building up healthy tissue and driving out all impurities and disease germs. Thousands have testified to its wonderful merits. Druggists sell it.

I feel that I must write you telling you of the great benefits derived from the use of your Golden Medical Discovery," writes Miss Laura Pierce, of East High Street, Washington, D. C. "Last summer my friends thought I was surely going into consumption, and having tried doctors before with no satisfactory results and hearing your medicine so highly spoken of, I bought one bottle. My cough left me altogether with all the distressing symptoms, and in fact I am cured of my disease and anxious to all who save me. I cannot say enough in praise of the medicine, and have done much to induce others to use it."

Colonel Holloway's appointment will be charged to the president's personal account.

Admiral Miller Reports.

WASHINGTON, July 23.—Admiral Joseph N. Miller, who represented the United States navy as one of the special embassy from this country to London on the occasion of the queen's jubilee, called at the navy department yesterday and made formal report of his arrival and the discharge of the functions devolved upon him. He expects to sail for Hawaii on Aug. 5 from San Francisco on one of the regular merchant steamers. This conclusion disposes of the story that the battleship Oregon is to convey the admiral to Honolulu. That vessel will be kept in readiness for immediate service at San Francisco.

Powderly's Nomination.

WASHINGTON, July 23.—The Powderly nomination has so far failed to secure attention from the senate committee on immigration because of the absence of a quorum. Another effort will be made to secure a committee meeting today, but the impression is gaining ground that the nomination will not be reported to the senate during the present session of congress.

GENERAL LOGAN.

Unveiling of Equestrian Statue in His Honor at Chicago.

CHICAGO, July 23.—Yesterday the center of the west was a little mounded in the Lakefront park. Past its base for hour after hour swept rank after rank of the men who had been the defenders of their country throughout the days which are at once the brightest and darkest in its history—rank after rank of the fighting men of today—and rank after rank of the boys who are to be the soldiers of the future. From the middle of the afternoon until dusk the broad expanse of Michigan avenue was swept from curb to curb by a marching host. From end to end it was a glittering

vision of weapons of war, tossing plumes and standards, and throughout its length a vast concourse of people packed the sidewalks, filled the windows and scaled the roofs to see, as the soldiers marched, how Illinois kept faith with the memory of John A. Logan.

In front of the little hillock upon whose summit stands the inspiring and life-like statue of Logan as he appeared while rallying the broken ranks of the Army of the Tennessee 33 years ago, was erected a large stand, and upon it were seated his widow, his children, his grandchildren and his brothers. In the absence of President McKinley, who was unavoidably detained in Washington, Secretary of War Drake represented the government. Old friends and comrades of Logan were there in profusion. Members of his old regiment, members of the Grand Army and members of the Loyal Legion all gathered in great numbers to do him honor.

A few minutes past 1 o'clock John A. Logan III, the 5-year-old grandson of the "Black Eagle," pulled the silken cord which parted the veils concealing the magnificent likeness of the great commander as he rallied the broken ranks of the federal troops and led them into victory before the city of Atlanta, July 22, 1864.

Besides the members of General Logan's immediate family the reviewers among others included: Governor Tanner of Illinois; Governor Holcomb of Nebraska; Governor Drake of Iowa; Governor J. W. Aldrich of Indiana; Governor Atkinson of West Virginia; Governor Schofield of Wisconsin; Secretary of War R. A. Alger and Mrs. Alger; Ex-Senator D. M. Sabine of Minnesota; Archbishop John Ireland of St. Paul; Lord Bredalbane of England and Governor Barnes of Oklahoma. The ceremonies of the day were concluded last night by a reception at the Coliseum, where Mrs. Logan, Secretary and Mrs. Alger and Sculptor St. Gaudens received the thousands who pressed into the building.

The sweetest and the most expressive word in the English language and the one about which the most tender and holy recollections cluster is that of Mother—she who watched our tender years; yet the life of every Expectant Mother is beset with danger. No assists Nature in the change taking place that the Mother is enabled to look forward without dread or gloomy forebodings to the hour when she experiences the joy of Motherhood. Its use insures safety to the lives of both Mother and Child, and she is left stronger after than before confinement.

A baking powder man started in business twenty years ago with a cash capital of \$12.50. He sold out his interest in the business the other day for \$2-500,000. Doubtless his baking powder is an excellent article, but the chief reason for his success was the fact that he never allowed the public to pick up a newspaper without his familiar 'ad' in it.

COX'S PHARMACY.

Indianapolis Struck.

The Alaskan gold fever has appeared in this city. Many inquiries concerning rates are made at the railroad offices. The agents think there will be considerable travel out of Indianapolis to the gold country. The cost of making the trip from here is about \$200, if made from Seattle by boat. If the overland route is taken the cost will be reduced somewhat.—Indianapolis News.

Some Kansas Yarns.

The Kansas City Journal has gathered some sample stories showing that there are times when it is so dry in the western part of the state that you have to soak a hog over night before he will hold swill. There are places where the water is wet only on one side, and there is one place where the owner of a ferry boat hauls water eleven months in the year to keep his ferry running, while one poor farmer used to run the well through the clothes wringer every morning to get water for cooking.

MAJOR LEE'S RECEPTION.

A Warm Welcome Extended at Armory Hall Last Night.

Yesterday afternoon Major Chas. W. Lee, republican candidate for congress, arrived in Seymour, and spent the latter part of the afternoon calling on our citizens and making their acquaintance. Charlie is a wholesouled, honest, friendly man whom the people are glad to welcome. He invariably

leaves a warm spot in the heart of all he meets.

Last night a hearty reception was tendered the Major at Armory hall. A good sized crowd was present and enjoyed themselves quite well. At the close Major Lee was called for and made a brief address in his own happy style. His remarks were warmly applauded at times and he made a good impression on all who were present.

He will spend today in Raiding and Hamilton townships and be in Seymour again this afternoon and evening.

The Columbus Situation.

There is no change in the strike situation at Columbus. An unsuccessful attempt was made yesterday to adjust the differences between the Mooneys and the strikers. The latter submitted their ultimatum asking their former wages, a nine hour day and the reinstatement of all former employees. The employers could not concede these points and there the conference ended. Four of the old men returned to work this morning and several new men have been employed. The strikers will probably make a statement of their case this afternoon.

Old People.

Old people who require medicine to regulate the bowels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whisky nor other toxicant, but acts as a tonic and alterative. It acts mildly on the stomach and bowels, adding strength and giving tone to the organs, thereby aiding nature in the performance of the functions. Electric Bitters is an excellent appetizer and aids digestion. Old people find it just exactly what they need. Price fifty cents and \$1.00 per bottle at W. F. Peter's drug store.

A CONFIDING WOMAN.

Comes to Grief in a Brief Matrimonial Experience.

A middle aged woman giving her name as Mrs. Willie Bond alighted from the fast west bound early morning train. While here she related here she related tale of woe. It was the story of a matrimonial venture of short duration and abrupt ending. This was her third venture in matrimonial experience. As a widow, Mrs. Emma Umbolts, she had worked at a hotel in Piqua, Ohio. There she met Willie Bond, thirty-five, good looking and with one leg shorter than the other. Willie proposed marriage and was accepted. The bride had saved \$400 from her earnings and possessed a gold watch and other jewelry. They were married last Saturday at Troy, Ohio, where she expended about half her savings in their wedding outfits and turned the remaining \$200 over to her husband. Having decided to go into business at Vincennes they went to Cincinnati and started west on the B. & O. S. W. train. Soon after getting on the train he borrowed her gold watch and went into the smoking car to enjoy a cigar. By and by she grew suspicious that the cigar was being smoked for an unusually long time and on inquiry from the conductor found that he had left the train soon after leaving the city. She came on to Seymour and returned to Cincinnati on the next train declaring she would hunt up her lost Willie and if possible put him under the care of the Ohio penitentiary warden.

ABLE PRACTICAL JOKE.

It Created Considerable Excitement in a University City.

The Cambridge (England) Independent Press retells the story of the hoax perpetrated upon the civic and university authorities at Cambridge on the occasion of the visit of the late shah of Persia to that country. It was on Saturday, June 28, 1873, at 11 o'clock in the forenoon, that a telegram was found lying on the hallkeeper's table in the Guildhall. It was directed to the worshipful the mayor of Cambridge, was signed by Lieutenant Colonel Hamilton and read as follows:

"His imperial majesty the shah of Persia desires to visit your university town today en route for London by special, arriving at Cambridge station about 1:10 o'clock. Be prepared with escort and reception as far as time allows."

Instantly everybody began tumbling over his fellow. The town clerk was sent for, and messages were dispatched to the vice chancellor, the members of the corporation, the volunteer officers and the cook of St. Peter's college kitchen. The vice chancellor hurried on in his robes, the aldermen and councilors did ditto, the volunteers donned their uniforms, and the cook began to boil and fry.

Nor were the general public behind-hand. Flags were hung out and crowds gathered in the street. Dr. Cookson, the vice chancellor (irreverently known in those days as "Dismal Jimmy"), made his way to the station as fast as his dignity would permit. The mayor, Mr. T. H. Naylor, and the corporation followed suit. A guard of honor and carriages were in waiting, and soon everybody was there except the shah. Then the news flew round that the railway officials knew nothing about the special train, and after a brief delay it was apparent that the whole thing was a hoax. The perpetrators of the hoax were never discovered, though two persons were afterward freely mentioned in connection with it. In the year of grace 1873 the era of practical jokes was past, but had the authors of the shah's visit been alive in the days of Theodore Hood they might have lived in literature.

John P. McLean's Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; and a more successful publisher than its proprietor, Mr. John P. McLean. The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

SKATING IN OLD DAYS.

How the Sport Became Popular in New York City.

While skating is now one of the most popular sports of the winter season it is only comparatively a few years since it has become so in this city. When the Central park was being constructed in 1860 and the small artificial lake at Fifty-ninth street was nearly completed, the park commissioners announced that it would be thrown open for the use of skaters. A few men took advantage of the invitation, but women could not be induced to go on the ice. The skates then in use were of the most antique pattern, some of the runners extending a long way in front of the foot, ending in a ringlike curl. In a crowd these skates were quite dangerous, and the first year skating was anything except popular.

During the next winter the larger lake at the upper end of the mall was in such condition that it could be used for skating. Here there was more room for the sport, but still the women could not be induced to venture on the ice. A number of gentlemen determined to overcome this prejudice and organized the New York Skating club, having a regulation patterned skate, almost even with the sole of the foot, which was laced up tight to the ankle, while the objectionable strap was done away with, the runner being fixed to the sole while in use by a ball and socket and held firmly with a clamp. These became popular that winter with the men, and a lighter kind was made for women. The prejudice, however, still existed among the latter, until the club invited a lady, who was a fine skater, from Portland, Me., to visit the Central park and skate with the club. This lady wore a pretty and appropriate dress, similar to that worn in winter by women skaters in Europe, and she created such a sensation by her artistic skating as to attract much notice. The result was that before the season ended several young ladies were induced by the club to venture on the ice, and the season of 1862-3 found many, with pretty costumes, enjoying the sport.

A series of carnivals were arranged by the club during the following season, and skating in the evening became one of the fashionable winter amusements. —New York Mail and Express.

Mens and Iron.

A French physician has invented a method by which he says iron can be given in large doses. He has noticed, have powerful internal organs. They can digest considerable quantities of iron and then render it back, through the albumen of their eggs, in a form which is easily digested by the weaker stomach of mankind. So he feeds his hens with what he calls "a very absorbent salt of iron," mingled with grains of wheat, and they lay eggs extremely rich in iron already digested.

Something to Depend On.

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with La Grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into Hasty Consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose, and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for Consumption, Coughs and Colds is guaranteed to do this good work. Free trial bottles at W. F. Peter's drug store.

Prison Labor.

Yielding to a demand by free labor, our late general assembly passed an act prohibiting the penal institutions of this state from manufacturing goods to be sold in competition with free labor, as fast as existing contracts expire. Already a good many convicts are in enforced idleness, which will be a grave disadvantage along as contracts expire.

The decision of Judge Carr, of the Wayne circuit court where the agent of the Kentucky prison made funeral was defendant, declaring the act of 1895 restricting the sale of convict made goods of other states unconstitutional, will if sustained by the supreme court, make this state the dumping ground for other states, while the enforced idleness of convicts of this state will not give the hoped for relief to free labor of this state.

Visitors to Lincoln Park in Chicago

No stranger visiting Chicago should be without a copy of the "Souvenir of Lincoln Park." It can only be procured by enclosing twenty-five (25) cents in coin or postage stamps to Geo. J. H. Ford, general passenger agent, 410 Old Colony Building, Chicago.

RAILROAD RUMBLINGS.

Passenger conductors report a marked increase in local travel the last ten days, and take it as evidence that the people in the country again have money to travel on.

The Pennsylvania people have under consideration the making of a number of changes in the running time of their through trains, which, it is thought, will still further improve the service and better accommodate the through travel.

TAGGART RENOMINATED.

Ex-State Democratic Chairman Carries the Majority Nomination on First Ballot. INDIANAPOLIS, July 23.—The Democratic city convention held here yesterday afternoon renomminated Thomas Taggart for mayor on the first ballot, the vote being: Taggart, 609; Frank A. Maus, 19; John N. Navin, 15; T. F. Harrison, 9. All the other city officers were renomminated. The platform endorses the Chicago platform and William Jennings Bryan; condemns the Republican party "for failure to open the mills," extends sympathy to American laborers, who were promised better wages and steady employment if McKinley was elected; condemns Governor Mount and the late legislature for amendments to the Australian ballot law; extends sympathy to the striking coal miners and extols Mayor Taggart's administration of city affairs.

VANDEPOELE TROLLEY PATENT.

United States Court Knocks It Out—Can Be Used by Anyone.

NEW YORK, July 23.—In the circuit court of appeals for this district, a decision has just been handed down in the case of the Thompson-Houston Electrical company against the Hoosier Railroad company.

The court holds that the VanDepselle trolley patent is invalid by reason of the same invention having been disclosed in an earlier patent to VanDepselle. The decision, therefore, invalidates the patent, because it was claimed to cover broadly the idea of the undercurrent trolley on an overhead wire.

The court's finding affects all the trolley railways of the country, as the patent may now be used by anyone without paying royalty.

STRUCK BY LIGHTNING.

Three Children Killed While Standing Under an Apple Tree.

HAZEL GREEN, Ky., July 23.—At the residence of James Wilson, while he and his wife were away from home a storm came up. Four children were playing in the yard near an apple tree, in which hung some moving scythes, and lightning struck and killed two of the children and badly burned and stunned another. The three were standing some little distance from the tree, and the fourth was standing by the tree and was unhurt. It seems that the flash must have struck the tree and been led off by a scythe blade to where the three children were standing in a bunch.

EDITOR DUNLOP.

He Is Very Ill at the Joliet Prison—Fears of a Paralytic Stroke.

JOLIET, Ill., July 23.—J. R. Dunlop, ex-editor of the Chicago Dispatch, who is serving a term in the penitentiary for printing obscene matter and sending it through the mails, is in a weak condition. He is a changed man. Ever since the day he entered the penitentiary he has never left the small room on the second floor of the hospital although he has had the best of care. There is fear of another paralytic stroke, he having suffered two before coming to the prison. The doctors say another one will prove fatal.
